

Australia's preferred civil plant hire contractor.

COMPANY OVERVIEW

AUSDIG is a leading civil construction company specialising in earthmoving, demolition, road works, and dam construction. Established in 2007 and based in Adelaide, South Australia, AUSDIG provides high-quality services to government and private sectors across Australia. The company is committed to delivering safe, efficient, and sustainable solutions while supporting local communities and fostering Indigenous employment opportunities.

CORE COMPETENCIES

- **Earthmoving & Excavation:** Comprehensive bulk and detailed earthworks using advanced machinery.
- **Survey Equipment:** Utilising advanced survey tools including Total Stations, Base Stations, Repeaters, and Laser Levels, operated by skilled technicians.
- **Demolition:** Safe and efficient structural demolition, site clearance, and waste management.
- **Road Works:** Construction and maintenance of roads, pavements, and associated infrastructure.
- **Dam Construction:** Design, construction, and maintenance of dams and water storage facilities.
- **Plant Hire:** Provision of modern, fully maintained equipment, including excavators, dozers, graders, and trucks.

CERTIFICATIONS & COMPLIANCE

- Compliance with national safety, environmental, and quality management standards.
- Fully licensed and insured for civil construction and earthmoving operations, including:
 - Excavators
 - Graders
 - Dozers
 - Dump Trucks
 - Wheeled Loaders
 - Tippers
 - Skid Steers
 - Backhoes

DIFFERENTIATORS

- Established in 2007, Ausdig has years of industry experience with a strong track record of successful project delivery.
- Commitment to environmental sustainability and compliance with all regulatory standards.
- Investment in workforce training and development to maintain high safety standards.
- Support for Indigenous employment and community engagement initiatives.

MAJOR PROJECTS

- **Oaklands Crossing Grade Separation:** Collaborated with the PTP Alliance on a \$274 million project at a critical Adelaide intersection.
- **T2T Torrens to Torrens Project:** Provided earthmoving services, working alongside the T2T Alliance and other subcontractors.
- **Darlington Upgrade Project:** Partnered with Fulton Hogan and Laing O'Rourke to enhance connectivity in Adelaide's southern suburbs.
- **R2P Regency Rd to Pym St Upgrade:** Delivered earthmoving services and civil works in collaboration with the R2P Alliance and other subcontractors.
- **FC Alliance:** Partnered with contractors to complete the duplication of Main South Road from Seaford to Sellicks Beach.
- **Australian Navel Infrastructure:** Closely working with ANI to complete earthmoving works at Osbourne Navel Shipyard facility.
